

Multilevel Diver

The PADI Multilevel Diver Course

Maximize your dive time so you can explore more!

In this course, you learn how to plan dives that extend your bottom time by crediting you for slower nitrogen absorption when you ascend to a shallower depth. That's the way you really dive, after all.

The Fun Part

This is a great way to learn how to make multilevel dives even if you forget to bring your [dive computer](#).

What You Learn

You'll learn what multilevel diving is and why you want to plan for multilevel dives. You'll also get to see the various types of multilevel dive calculators (including [dive computers](#)), as well as learn about multilevel dive planning, organization, procedures, techniques, and potential problems. You'll plan a multilevel dive profile and dive it with your PADI Instructor.

You learn how to:

- Plan and execute multilevel dives (different depths on the same dive)
- Back up your [dive computer](#) and plan multilevel dives
- Maximize your no stop time

The Scuba Gear You Use

You'll need your basic [scuba diving equipment](#). It's helpful to have your [dive computer](#).

Check with us about gear rentals and packages offered with this course. You can find most everything here at NOVA Dive Center.

The Learning Materials You Need

The electronic Recreational Dive Planner (eRDP ML), Multilevel version is a great tool to help you plan your multilevel dives.

- Plan up to 5 consecutive dives
- Plan up to 3 consecutive multi-level dives

To purchase this product, contact us any time.

Prerequisites

You must be:

- A [PADI Open Water Diver](#) or Junior Open Water Diver (or have a qualifying certification from another training organization)
- At least 12 years old

Your Next Adventure

Multilevel diving is often conducted while [deep diving](#) or [wreck diving](#). Multilevel diving combined with [Enriched Air Nitrox](#) provides the longest no stop dive times possible.
