

Tec Diver Level One

The DSAT Tec Diver Level One Course

The DSAT Tec Diver Level One course picks up where [Tec Basics](#) leaves off and takes your training as a tec diver into the actual open water environment. It is the second subcourse in the full DSAT [Tec Deep Diver](#) course.

What You Learn

- Make a gas switch, extended no-decompression dives using air and enriched air to 40 metres/130 feet
- Prepare for and respond to foreseeable technical diving emergencies
- Master the basic skills and procedures you'll need as you move into deeper technical diving

The Scuba Gear You Use

You use [basic tec diving equipment](#)

The Learning Materials You Need

You'll use the Tec Deep Diver Crew-Pak, which introduces you to

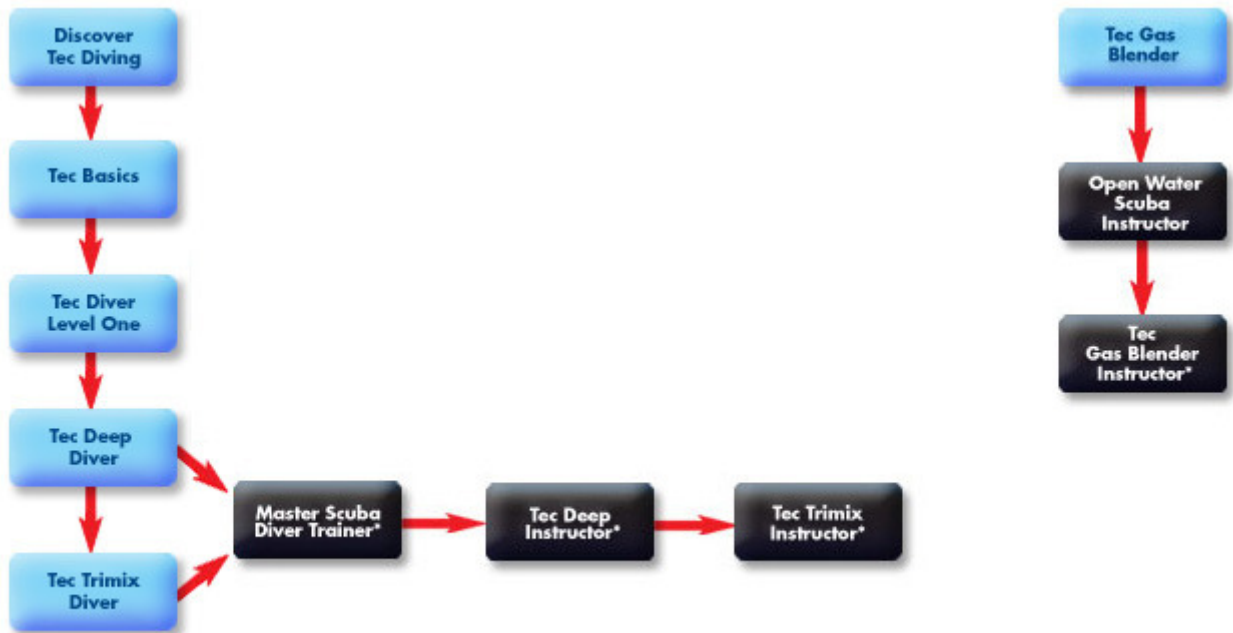

- tec diving lingo
- emergency procedures
- decompression and stage cylinder handling
- gas planning

The pak includes a manual, dive planning checklist and dive planning slate. The optional Equipment Set-up and Key Skills video on DVD is a great tool to help you practice at home in between your tec diving adventures. You'll continue to use the Tec Deep Diver Crew-Pak through the [Tec Deep Diver](#) course.

Prerequisites

You must be

- A PADI [Advanced Open Water Diver](#) (or hold a qualifying certification from another organization)
- A PADI [Enriched Air Diver](#) (or hold a qualifying certification from another organization)
- A [PADI Deep Diver](#) (or hold aqualifying certification from another organization)
- Have a minimum of 50 logged dives, of which at least
 - 10 dives must be on air enriched air
 - 12 dives must be deeper than 18 metres/60 feet
 - six dives must be deeper than 30 metres/100 feet
- At least 18 years old
- Have a [medical statement](#) signed by a physician

*Additional prerequisites required
